

ROUNAK RAJ

AI & ML Engineer

Hajipur, Bihar, India | +91 9572073615 | rajrounak366@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Aspiring AI & ML Engineer with hands-on experience across two internships and a research annotation project, specializing in multi-agent AI systems, LLM-based automation (LangChain/LangGraph), and applied machine learning. Built and shipped **two end-to-end AI/SaaS products** independently, integrating Gemini, OpenAI, and GROQ APIs. Seeking to apply strong Python fundamentals and agentic-AI experience to a production ML/AI engineering role.

EDUCATION

Diploma in Artificial Intelligence and Machine Learning

Government Polytechnic Barh | 2022 – 2025 | CGPA: 8.77 / 10

Secondary (X), CBSE

St. John's Academy | 2022 | CGPA: 8.22 / 10

TECHNICAL SKILLS

Languages: Python, SQL

Frameworks: Flask, FastAPI, Streamlit

Libraries: Pandas, NumPy, scikit-learn, TensorFlow, PaddleOCR, openpyxl

AI / Agentic Frameworks: LangChain, LangGraph, CrewAI, Google ADK, n8n, Zapier

LLM APIs: Google Gemini API, OpenAI API, GROQ API

Multi-Agent & RAG Systems: Planner–Architect–Reviewer agent pipelines, task automation, business-workflow agents

MLOps & DevOps: Docker, Kubernetes, MLflow, CI/CD pipelines

Data Engineering: ETL workflows, data preprocessing, Power BI

Databases & Cloud: MySQL, MongoDB, Google Cloud Platform (GCP)

INTERSHIP EXPERIENCE

Python Developer – Trainee — Walsis eConnect India Pvt. Ltd., Patna, Bihar

Apr – Jul 2025

- Built backend features for **Expensedia**, an expense-management product, including a PDF/image receipt-extraction pipeline using PaddleOCR with field validation.
- Generated structured Excel expense reports from validated data using openpyxl, automating a previously manual workflow.

Traffic Sign Data Annotation — IIT Indore, Virtual

Oct 2024

- Annotated Indian road traffic sign images to build a labeled dataset for a machine learning pipeline.
- Maintained labeling consistency and accuracy under the guidance of IIT Indore faculty.

Machine Learning Intern — Vaishnav Technologies, Virtual

Sep – Oct 2024

- Built classification and prediction models using scikit-learn, handling data cleaning, feature engineering, and model evaluation with Pandas and NumPy.
- Compared multiple ML algorithms and selected the best-performing model for the task.

PROJECTS

AI App Builder (Lovable-inspired) — [GitHub](#)

- Designed a multi-agent system (Planner → Architect → Coder → Reviewer) using LangGraph and LLMs to generate complete web applications from natural-language prompts.
- Built tool-using agents to write, edit, and review code files autonomously, with live preview execution and one-click ZIP export.

Sikhsha Sathi — [Live Demo](#)

- Built a SaaS institute-management platform (FastAPI, MongoDB) supporting student records, payment tracking, and an analytics dashboard.
- Designed the backend architecture and database schema for multi-tenant scalability.

SOFT SKILLS & LANGUAGES

Teamwork • Problem Solving • Adaptability • Communication | English, Hindi
